

How to Play

DYNASTY

Blackjack

Blackjack is a casino table game that you play against the dealer, not against other players at the table. To win, your hand must total 21 or less and must be higher than the dealer's hand total. Cards between 2 and 10 are valued at that amount. Jacks, Queens, and Kings are valued as 10. Ace can be counted as 1 or 11. The player gets a blackjack if dealt an Ace and a 10-valued card.

*Table layout may vary depending on gaming jurisdiction.

Placing Your Bets:

- Insert currency or tickets to receive credits. 
- Before the cards are dealt, the player must put up a bet. Select the desired denomination from the chip set on the player station screen, and touch the player bet position or side bet on the table layout

- Increase any bet amount by touching the bet location again for each additional wager, or by touching a higher value in the chip set.
- To repeat the same bets as your previous game, press the “Repeat Bet” button. To remove bets one at a time, press the “Undo” button.
- The bet timer in the middle of the screen indicates the time remaining in the betting period for each game. When the timer runs out, all bets are locked and the blackjack hand is dealt.

Types of Bets

- All traditional blackjacks bets & actions are available, including Split and Double Down. There is also an Upcard Luck 21 side bet that is awarded if the dealer up card is a 2-7. This side bet is paid out according to the total value of the first two cards.

Tip Your Dealer

- To tip your dealer, touch the “Tip” button on the bottom left hand of the screen and select the chip amount, then press “Confirm” to send the tip to the dealer.

Special Features

- The player and dealer hand history information is displayed on the top left of the player screen.
- Touch the “Language” button to switch between English and Chinese. 
- Select the “Rules” button for more information on how to play.
