## EZ PAI GOW POKER

### No Commision Pai Gow

Minimum and maximum bets, and any maximum payouts are posted at the table.

EZ Pai Gow Poker is a combination of elements from the ancient Chinese game of Pai Gow and the American game of Poker. A traditional deck of 52 playing cards is used, plus one joker. **The joker is used as an Ace** or to complete a straight, flush, straight flush or royal flush.

All winning wagers are paid even money. **(No Commision is collected in EZ Pai Gow).**

The game begins with a random generated number, or a **roll of the dice**, the total of which determines which Player receives the first hand. Each Player places their bets and then receives seven cards, in which two hands are created; a **high hand** and a **low hand**. The low hand must be ranked lower than the high hand. The high hand is made up of five cards and the low hand consists of two cards. Both the high hand and the low hand must be higher than the Banker's hands to win. If only one of the hands is higher, it is a tie. If both hands are lower, the Player loses. The only exception is **when the Banker's hand contains a Queen high Pai Gow, and only a Queen high Pai Gow, all main Pai Gow wagers are pushed**. Side bets are paid accordingly. The House does not offer Bank or Co-Bank in EZ Pai Gow.

EZ Pai Gow offers three optional side wagers as follows:

**DYNASTY BONUS** – An independant wager which will win to a posted pay table for a hand of a straight or better.

**NOTE:** If a Player has wagered at least **\$5**, the Player qualifies for an **Envy Bonus** on the Dynasty Bonus. The Dealer will place an "Envy" Lammer button next to their wager. The Dealer will pay to the posted pay table when any Player's hand contains a **four-of-a-kind** or better. A Player cannot win **Envy Bonuses** for his own hand or the Dealer's hand.

**PAI GOW PROTECTION** – An independant wager which will win to a posted pay table for a hand of **Ace high or less**.

**QUEEN'S DRAGON** – An independant wager which will win 50 to 1 if the Banker's hand is **Queen high Pai Gow**.

In Pai Gow, the Dealer must set their hand according to strict rules known as "**House Ways**". If you request, the Dealer can set your hand according to House Ways, but is not responsible for wins or losses.

The House Ways are ranked from the lowest category (1), to the highest (10). If the hand contains more than one category, the Dealer will use the category that is ranked higher according to these House Ways and the cards will be set according to those rules.
